TYPES OF TILE FLOORING AND MORE

Learn about the benefits of tile flooring such as long-wearing durability, moisture resistance and ease of maintenance, which makes ceramic tile or porcelain flooring the ideal choice for beauty and wear.

TYPES OF TILES: CERAMIC, PORCELAIN AND STONE

With its timeless beauty and long-wearing durability, ceramic, porcelain and stone tile flooring create a unique look that's as practical as it is personal.

It's perfect in kitchens and baths where moisture resistance and easy maintenance are essential. And its impact and scratch-resistant properties make it ideal for family and recreation rooms that get heavy-duty use.

You'll find innovative designs in ceramic, porcelain and stone tile that are as affordable as they are appealing.

CHOOSE TILES TO COMPLEMENT YOUR DECORATING GOALS

Today's broad selection of ceramic, porcelain and stone tile is suitable for both casual and formal settings. You'll find a stunning array of choices including glazed and unglazed finishes; deco, rustic and contemporary styles; and porcelain, slate and terra cotta tiles. And, you can create endless designs throughout your home with perfectly matched decorative accents and trim pieces.

UNDERSTAND SHADE AND TEXTURE VARIATIONS

Variations are natural effects of the tile manufacturing process and account for the vibrant mix of shades and textures unique to this traditional flooring.

All these elements make a difference in how your floor will look.
